

Daddy Issues

KiDi

Oh oh oh oh oh ooooh...

Her daddy pull a gun
Her mama pull a knife
The little girl scream
When her parents start to fight
The woman down the road
She caused all this mess
Her bed is made of rose
And her kiss is like death

And everybody knows
That she's daddy's little girl
But when he skipped town
It destroyed her whole world
She never been loved
She never been hugged
She hangs with the killers, the dealers and the thugs

And if her daddy don't love her
How can she love you
And if her daddy don't want her
How could she want you
She hangs with the killer, the dealer, the criminal
Her daddy don gone again
She hangs with the liar, the cheater, a beater
Her daddy left town again

Oh oh oh oh oh oooh ooooh...

Her heart is so cold
It's colder than ice
You name the trick
And she'll name the price
You name the date
And she'll name the place
If your diamond love to shine
She pull a gun pon your face

And everybody knows
That she's daddy's little girl
But when he skipped town
It destroyed her whole world
She never been loved
She never been hugged
She hangs with the killers, the dealers and the thugs

And if her daddy don't love her
How can she love you
And if her daddy don't want her
How could she want you
She hangs with the killers, the dealers, the criminals
Her daddy don gone again
She hangs with the liar, the cheater, a beater
Her daddy left town again

Daddy left the door wide open

Ever since her heart's been broken
Now the situation's getting bad, so bad, so bad
Heading to the nearest station
Forgot about his own creation
And now his baby girl is growing up so mad, so mad, so mad
