

## We Outside

KiDi

I know that it's hard  
To always have to put on a brave face  
Like everything is okay  
Put on your best clothes, best make-up, best hair  
And head out like the world is fine  
But deep down you're going through things  
I'm going through things  
We're all going through things  
But tonight, while we're alive,  
Let's raise our glasses and toast to our pain  
Because We Outside!
