Tears On A Page

Kidneythieves

```
When the lights are low and life is in your face whether right or wrong, you'll find a way it all fades

like tears on a page
```

so it broke your soul and they took your place whether right or wrong, you'll find a way

it all fades

like tears on a page

i want you to hear, don't you want to hear it?

it all fades, like tears on a page

don't you want to hear it?

it all fades like tears on a page.
