

# Underneath

Kidneythieves

I opened my eyes to see  
What's real is not anymore  
The grin(?) of the adreanaline  
The faint(?) on the floor  
I'm standing here all alone  
Won't be like it was before  
The sky is changing  
And no one is safe anymore

Underneath  
It's just a game  
And what you see  
It still remains  
Underneath  
I fight your wars  
Over, and over, and over again  
Over, and over, and over again

Appears you don't understand  
The change is coming our way  
The game  
It changes the plan  
Leading you astray  
Front lines are on the inside  
And words could give us away  
And just by the look in your eyes  
We know the light is coming

Underneath  
It's just a game  
And what you see  
It still remains  
Underneath  
I fight your wars  
Over, and over, and over again  
Over, and over, and over again

What you see  
Is a lie(?)  
Underneath  
Is a fight(?)  
Underneath  
Is a fire(?)

Underneath  
It's just a game  
And what you see  
It still remains  
Underneath  
I fight your wars  
Over, and over, and over, and over

Underneath  
Is just a game again  
Underneath  
Is just a game again  
Underneath

Is just a game again
