

Theme From Pink Flamingo

Kids in Glass Houses

It's been a minute, let me find my place
I don't think that things are getting better
Now it's getting crowded on my birthday cake
Oh my...
Everything is temporary, I hope we last
Don't know what we need, I know we need it fast
Everything's essential then the cravings pass
Til next time

You were too slow to find me
You were too quick to let me go
You were two steps behind me
You were too far to let me know

So we go shopping for a brand new face
Is this a mirror or a television?
Wanna be a winner in the human race
With this smile
Vote for a messiah get a narcissist
Won't somebody think of all the kids kids kids?
We don't know what we want, but we don't want this
Oh my...

You were too slow to find me
You were too quick to let me go
You were two steps behind me
You were too far to let me know
If you trust me untie me
If you love me then let me go
You were two steps behind me
You were too far to let me know

Watching every move that you make make make
Why is it you're always on the take take take?
Watching every move that you make make make
I keep on thinking things are gonna change

You were too slow to find me
You were too quick to let me go
You were two steps behind me
You were too far to let me know
If you trust me untie me
If you love me then let me go
You were two steps behind me
You were too far to let me know
