

Stupid Games

Kids In The Way

It's funny how things change
We're growing day to day
I remember when I use to say
"Wouldn't that be cool,
If we could rule the school"
We'd walk around just knowing
Everybody knew our names.
The way we combed our hair
And all the clothes we'd wear
Were all a part
Of one big game of popularity

We tried so hard
To only find
It's all about the inside
And all that time
A frame of mine
Was a waste of time

It's funny how things change
We're growing day to day
I remember when I thought
That everything was lame
I thought I missed the mark
My life needed a spark
If only I could see
That I had everything

We tried so hard
To only find
It's all about the inside
And all that time
A frame of mine
Was a waste of time
