

Calling out Your Name

Kiefer Sutherland

You never said goodbye
I never got to cry
They took it all away
And we will never be the same,
No we'll never be the same
Calling out in the night
Fighting for my life
Can be steal or reload
In this place we called home
So calling out your name, knowing that we'll never be the same
No we'll never be the same
You told me up inside
And i had no place to hide
They took it all away
And we'll never be the same
No we'll never be the same
Calling out in the night
Fighting for my life
Can be steal or reload
In this place we called home
So i'm calling out your name
Knowing that we'll never be the same
The angels hide
And the flowers die
And no one cry
And no one cry
And no one lie
Calling out your name
Knowing that we'll never be the same
Calling out your name
Knowing that i'll never be the same
