

Can't Stay Away

Kiefer Sutherland

Walking in the wrong direction
Know I should be walking home
Smart enough to know much better
Ain't tough enough to be alone
I can't stay away

Got me wrapped around your finger
Pulling strings to play my heart
You fill the night with conversation
Then turn the daylight dark

Oh, I can't stay away
Oh, I can't stay away

There you go laughing at me
Watch my wheels fall off the track
Did you think I'd let you down
Did you think I'd get you baby
Off my back

I can feel your blood run through me
I'm standing on a mountain high
Sent to heaven on the devil's wings
Couldn't stop her if I tried

Oh, I can't stay away
Oh, I can't stay away
