

Gonna Die

Kiefer Sutherland

Move over man, i'm carrying a heavy load
I'm doing the best i can but i feel like i'll explode
Give me one more chance before i get too old
The ground that i'm sleeping on is getting too damned cold

And i'm gonna die
'Cause i cannot cry anymore

Swimming through the water
And i dive down through the pain
Once i hit the bottom i will surface once again
I forgive me, can you forgive you
These words come from my heart, brother
And i swear that they are true

'Cause i'm gonna die
'Cause i cannot cry any more

It's dark tonight, too dark to see
But i can still remember the man i used to be
I once was strong but now i am weak
So lord do me a favor come down here and get me
