

# My Best Friend

Kiefer Sutherland

Most of the people that I've known  
Have let me down or caused me pain  
Most of the people that have known me too  
Probably say the same  
I don't know when it got so bad  
How it all went off track  
All I know is I can't waste more time  
No more looking back

So good bye to the past  
It's time to start again  
I'll find a way  
Yeah I'll find a way  
Good bye at last  
I won't look back again  
No I'll find a way  
To make me my best friend

When I woke up the sun shined through  
And it never looked so bright  
Looking out I saw the sky was blue  
And the clouds the perfect white  
I never felt hope this strong before  
No it never felt so right  
So Lord if you can hear me now  
Get me through the night

And good bye to the past  
It's time to start again  
I'll find a way  
Yeah I'll find a way  
Good bye at last  
I won't look back again  
No I'll find a way  
To make me my best friend

And I won't let you down  
No I won't turn around  
If you stay here by me  
No I won't look back  
And I won't put???  
If you promise to stay  
Here by me

So good bye to the past  
It's time to start again  
I'll find a way  
Yeah I'll find a way  
Good bye at last  
I won't look back again  
No I'll find a way  
To make me my best friend  
Yeah my best friend  
To the end
