

## This Is How It's Done

Kiefer Sutherland

First time in a barroom when I was just a boy  
Two men commenced to fightin', it was fightin' they enjoyed

As fast as it started, it was over and done  
One man left standin', there could only be one

Well he looked me in the eye and he said, "C'mon, son  
It's time to drink some whiskey, and this is how it's done"

This is how it's done  
This is how it's done  
This is how it's done  
Yeah, this is how it's done

Now honky-tonks and juke joints, they fast became my home  
Always in good company wherever I would roam

Stompin' to the music with a cold one in my hand  
One night, a pretty cowgirl's eyes cried  
"Catch me if you can"

Well, I followed her to the dance floor and she showed me where  
she's from  
When I yelled out to the crowd, "Hey, now this is how it's done  
"

This is how it's done  
Yeah, this is how it's done  
This is how it's done  
Yeah, this is how it's done

Now I ain't lookin' for no trouble, but backin' down won't do  
I'd rather sip my whiskey and buy a round for you

Well, if you insist on fightin', well, you may be sorry, son  
Cause you're messin' with a veteran of kicking ass for fun

This is how it's done  
Yeah, this is how it's done  
This is how it's done  
Yeah, this is how it's done, son  
This is how it's done  
Yeah, this is how it's done  
This is how it's done  
Now this is how it's done
