

# Truth in Your Eyes

Kiefer Sutherland

This house is too big and empty  
Since you been gone  
I never thought that you'd leave me  
Now I know I was wrong  
When they laid you to rest  
I felt dead for so long  
Now I need to say I love you  
In the words of this song

Cuz you were my only, my one and only  
You were the love of my life  
You never scold me, only wanted to hold me  
Make everything feel all right  
And you put your hand in mine  
And said it was for all time  
And I saw the truth in your eye  
Yeah I saw the truth in your eyes

I hope that you have found peace where ever you are  
Looking up at the sky tonight night  
I see your shining star  
I close my eyes to remember and you don't seem so far  
Walking down this road without you  
Nothing ever been so hard

Cuz you were my only, my one and only  
You were the love of my life  
You never scold me, only wanted to hold me  
Make everything feel all right  
And you put your hand in mine  
And said it was for all time  
And I saw the truth in your eye  
Yeah I saw the truth in your eyes

Truth in your eyes  
Yeah the truth in your eyes  
Truth in your eyes  
Yeah the truth in your eyes  
They never lied

I can see your crooked smile  
Staring straight back at me  
What I'd give to be with you  
Puts me down on my knees  
But it's time to move on  
It's time to set you free  
But I need you to remember  
These simple lines from me

Cuz you were my only, my one and only  
You were the love of my life  
You never scold me, only wanted to hold me  
Make everything feel all right  
And you put your hand in mine  
And said it was for all time  
And I saw the truth in your eye  
Yeah I saw the truth in your eyes
