

## Two Stepping in Time

Kiefer Sutherland

Cigarettes in the ashtrays  
All in a line  
Empty glasses of whiskey  
Show the passage of time  
Dancing round the kitchen island  
With no one left to stare  
I feel you move around me  
Like we're a perfect pair

Two stepping in time  
Follow me and you'll find  
Love could last us forever  
Just show me a sign  
Two stepping in time  
With your heart in mine  
I get lost in this moment  
When I see a tear in your

The fire sparks in the distance  
Embers dance in the sky  
And I will love you forever  
'Til the day that I die

Two stepping in time  
Follow me and you'll find  
Love could last us forever  
Just show me a sign  
Two stepping in time  
With your heart in mine  
I get lost in this moment  
When I see a tear in your eye

Now the dawn is upon us  
As the night fades away  
Put your hand in mine, darling  
And I'll show you the way

Two stepping in time  
Follow me and you'll find  
Love could last us forever  
Just show me a sign  
Oh, two stepping in time  
With your heart in mine  
I get lost in this moment  
When I see a tear in your eye
