

Intro: Spoken Word

Kierra Kiki Sheard

Brothers sisters, lets go and change the world
Lets go and make it a better place, yeah
Lets go and change the world
Thy kingdom come, thy will be done
Won't you touch our minds, keep us focused oh God
We want to do what you called us to do
We want to win the souls and the hearts of the lost
We want to make you smile

Are you ready
And willing
To do whatever (Free our minds for us)
To do the right thing
God's work through us

Put it in our hearts to not judge but love each other
More innovative ideas to take over the world
If nobody else goes, I'll go
Because I trust you God
I surrender, to you
You know whats best
Give us words to say
And have your way
