

# Human

Kierra Sheard

You know my past  
You know my name  
You don't know the hell of how I live this way  
You see the options  
You see me change  
Then draw your own conclusion why I choose my way

It's my own life  
Doesn't mean that you won't see me try  
Don't you get the chance to speak your mind  
But you look at me like I don't deserve the chance to

Just because you see me play  
Don't forget that I am human  
So make me out your own high  
Don't act as if I'm not human  
'Cause I know that you know what it really means to me  
Tryna do the right thing  
But I'm only human  
And I know that you want me to do it your way  
You don't do it your way  
'Cause we're only human  
And that's what I'm saying

You know my blood  
You know the game  
So why do you expect us to always explain  
You make assumptions when you don't know what happen  
Do yourself a favor, hold your stupid claim

It's my own life  
Doesn't mean you wont see me try  
Don't you get a chance to speak your mind  
But you look at me like  
I don't deserve the chance to

Just because you see me play  
Don't forget that I am human  
So make me out of your own high  
You act as if I'm not human  
'Cause I know that you know what it really means to me  
I'm tryna do the right thing  
But I'm only human  
And I know that you want me to do it your way  
But you don't do it your way  
'Cause we're only human  
And that's all I'm saying

Human, human, human, human
