

Miracles

Kierra Sheard

I just said it'll keep happening
Well look now, it's really happening
What you thought was impossible
You said yes now He's on a roll
Blessings keep stacking
Warfare, you packing
He's never leaving you alone
Whatever you speak, it unfolds

Whatever you say here
He's backing up there
Whatever you say here
He's backing up there

So speak whatever you want
What you've been dreaming, you've got it
Look at what He's doing
Look at what He's doing

I lived to see the miracles
I'm wearing Hisyoke
In with the new
Out with the old
It's joy to my soul
Now receive what you've prayed for
I declare that it's yours

He performed miracles
Just like He said He would (Hey)
He performed miracles
Just like He said He would (Hey)
He performed miracles
Just like He said He would (Hey)
He performed miracles
Just like He said He would (Hey)

May the God of love
Fill you with peace and hope
To live to see it all
You've got to see it all

Go on and live (Live)
Live to see another day (Live)
You gotta live (Live)
Live to see it happen (Live to see it happen)

Say live (Live)
In spite of a negative doctor's report (Live)
In spite of your enemy (Oh, live)
You outta shout I'ma live (Live to see it happen)

You gotta live (Live to see it happen)
Live to see it happen (Live to see it happen)
God is on your side (Live to see it happen)
Oh hey, yeah (Live to see it happen)

Live (Live to see it happen)

Live (Live to see it happen)
Live (Live to see it happen)
Oh

He performed miracles
Just like He said He would (Hey)
He performed miracles
Just like He said He would (Hey)

You're looking at a miracle (He performed miracles)
You're looking at a miracle (He performed miracles)
You're looking at a miracle (He performed miracles)
You're looking at a miracle

Hey

One more time

He performed miracles (He performed miracles)

Just like He said He (Just like He said He would)
Just like He said He would (Just like He said He would)
And another one

Another one
Another one (Another one, another one)
Another one

It's another one
