

Things You Do

Kierra Sheard

I know this love is real
I shine so bright
You make me feel like that
You're just my type
How bout that
I hope you know I'm for real
You're just my type
How bout that
You already know I'm down with the things you do

You make me feel like a woman
Don't you know you do it for me
Can't you see this confidence
I don't think they comprehend
You're just my type
How bout that
You don't even give me problems
I shine so bright
You make me feel like that
Anything you want I got you

I love when you come around
You don't never let me down
Don't ever go
So hooked on the things you do

I know this love is real
I shine so bright
You make me feel like that
You're just my type
How bout that
I hope you know I'm for real
You're just my type
How bout that
You already know I'm down with the things you do

The things you do (The things you do)
The things you do (The things you do)

You know who you are you know it
Ain't scared to love a working woman
You make me feel so comfortable
I sing you praises in the morning
I shine so bright
You make me feel like that
And you don't even give me problems
You're just my type
How bout that
Anything you want I got you

I love when you come around
You don't never let me down
Don't ever go
So hooked on the things you do

I know this love is real
I shine so bright

You make me feel like that
You're just my type
How bout that
I hope you know I'm for real
You're just my type
How bout that
You already know I'm down with the things you do

The things you do (The things you do)
The things you do (The things you do)
You already know I'm down with the things you do
The things you do (The things you do)
The things you do (The things you do)
You already know I'm down, down
