

Cannonball

Kiesza

I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

I wish I could take your heart
Keep it in a cardboard box
So when it gets hard
You'll never be far
And your love won't be lost
As the bridges fall apart
I still find a way to cross
And even if you are lost among the stars
Your love won't go off

For me-me-me it's endless
But I need-need-need more of this
Can't turn away, feel it push me

And I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

Like a cannonball

I can feel you take my love
And dangle it above the ground
And if the strings are cut
Nothing holds me up
Nothing takes me down

For me-me-me it's endless
I need-need-need more of this
Can't turn away, feel it push me

And I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

Like a cannonball

When I try to fall from your candlelight
I get lost in your "Maybe, maybe"
I'm just falling
When I try to hide from your love I can't deny it
Oh, baby, maybe
It's just my calling

But and I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

I keep falling
I keep falling for you
Like the rain fall
Like a cannonball

Like the rain fall
Like a cannonball

Like the rain fall
Like a cannonball
