Yeah you think you know who I am  
But you've got your face in the gram  
Throw up locked up in a hole  
Got lose I stop I froze  
Leg breaks no tweet tweet tweet  
All lies no sleep sleep sleep  
Mess up I arrive on fleek  
Yeah my space is so sweet (uh)

Don't you fucking know I'm getting bored yeah

Don't give a fuck casue you know I'm ghosting (yeah)

If I say I am then I fucking am (yeah)  
If I do it yeah then its fucking done (yeah)  
Never really talk about it gonna live in your  
Ghost Vision  
If I say I am then I fucking am (yeah)  
If I do it yeah then its fucking done (yeah)  
Never really talk about it gonna live in your  
Ghost Vision

I don't even know who you are  
I don't even owe you bar  
Shouldn't even waste my breath  
Like why you gotta go too far  
Funny you always got something to say  
Push comes to shove now your running away  
Sit with your phone in your nose  
And you hope for attention just waiting on something to hate

I don't need your 2cents you can keep the spare change  
I got enough weighing on me  
I don't need to where chains  
I don't need to speak up  
Say my shit when I want  
Play my shit how I want  
Drink my drink when I want

Yeah my lips there biting you back  
Glass eyes they see what they want  
Ghost light protecting your face  
I've given into the trap

If I say I am yeah fucking am yeah fucking am yeah  
Oh oh oh lickdrop oh oh oh lickdrop oh oh oh lickdrop  
Ghost Vision!

If I say I am then I fucking am (yeah)  
If I do it yeah then its fucking done (yeah)  
Never really talk about it gonna live in your  
Ghost Vision
