

Love Me with Your Lie

Kiesza

Came alive in a dream that I had
Ain't no way this could be
Real, real

But when I realised you were right there
As something I could
Feel, feel

Felt a change all over me
Gotta say that I kinda hope it
Lasts, lasts

I can't fight what feelings do
I can't help that I want you

I crave your touch
The moment that
That I saw your face
I knew I wanted that
Can you gimme that?
You're something I wish I had
And I wish I could tell you that
So we could get it started

Come on, baby, just
Gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love

I can see in your eyes
In the light, baby, that you feel
The same way

If you wanna make me wait
Then it's on, yeah, we both can play the
Same game

Just a matter of time you'll be mine
Yeah, it's sketched into the
Stars, stars

We can't fight what feelings do
I can't help that I want you

I crave your touch
The moment that
That I saw your face
I knew I wanted that
Can you gimme that?
You're something I wish I had
And I wish I could tell you that

So we could get it started

Come on, baby, just
Gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love

I should be reason enough
For you to gimme your love
You know that it feels right
Know that it feels right
It should be us

I should be reason enough
For you to gimme your love
You know that it feels right
Know that it feels right
It should be us

Just a matter of time you'll be mine
It's sketched into the
Stars, stars

We can't fight what feelings do
I can't help that I want you

I crave your touch
The moment that
That I saw your face
I knew I wanted that
Can you gimme that?
You're something I wish I had
And I wish I could tell you that
So we could get it started

Come on, baby, just
Gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
Gimme your love, gimme your love
