

# Love Never Dies

Kiesza

I have been at the mercy of love  
Too many times before  
I've been drowned in the well of lust  
So many times and lord  
Where were you when I prayed all night  
Where were you when on the darkest nights  
If I've got no one to guide me home  
My sins will pave the road

Oh I gave you an open heart  
You watched it go hard  
I came to you innocent  
You love to watch me bend

Love never dies  
Love never dies  
It's alive in our broken hearts  
And our swollen eyes  
Love never dies  
Love never dies  
It relies on the ones we've lost  
To keep us reminded

I've been cut by the blades of trust  
My proof is in the scars  
Walked my eyes through the blinding dust  
To save a lonely heart  
Held up my faith like an iron fist  
Only you knew it was delicate  
If my crusade is without a source  
My wounds will set the course

Oh I gave you an open heart  
You watched it go hard  
I came to you innocent  
You love to watch me bend

Love never dies  
Love never dies  
It's alive in our broken hearts  
And our swollen eyes  
Love never dies  
Love never dies  
It relies on the ones we've lost  
To keep us reminded

Love never dies  
Love never dies  
It's alive in our broken hearts  
And our swollen eyes  
Love never dies  
Love never dies  
It relies on the ones we've lost  
To keep us reminded

It relies on the ones we've lost  
To keep us reminded

Love never dies  
Love never dies
