

# Stays In Bed

Kiesza

Now don't think I don't feel you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere

Now don't think I don't see you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere

I wanna get you dirty  
I wanna bend and stretch  
I wanna get you working  
Let me relieve your stress  
I'm gonna get you swearing  
I'm gonna make you sweat  
Don't think you know what's coming  
What happens stay in bed

Stays in bed, stays in bed stays in bed  
Stays in bed, stays in bed, stays in bed  
Stays in bed, stays in bed stays in bed  
Stays in bed, stays in bed

Now don't think I don't feel you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere

Now don't think I don't see you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere

I wanna make you shiver  
I wanna hear you scream  
I wanna tie you up  
And take you where you've never been  
You're gonna leave your body  
One night you won't forget  
Don't think you know what's coming  
But you'll have no regrets

No regrets, no regrets, No regrets  
No regrets, no regrets

Now don't think I don't feel you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere

Now don't think I don't see you  
Come over come on touch me there  
You put your hands upon my body  
I move my body everywhere
