

Strangers

Kiesza

Let the moon decide
Whatever happens
Kill with the night
I drank my soul to the bottom of the bottle
But I'm standing
And you're standing there
The more I drink the less I care
My choking heart can't help but see that
You're damn good
When you dancing

I can't help watching you
Watching me right now
Right now
It's like magic
Your hearts so unbroken
That I cancels mine out

I came here angry
And you just saved me
So sweep me off of this barstool
Whatever comes next
Don't hold anything
Don't hold anything back
As long as we're strangers you can't
Break my heart

I'm so dizzy I can see the future in your eyes
A fairly tale I'll tell myself till we throw in
And the bar closes
But I thank you now
I walked in here meaning to drown
And you just had to save me from myself
From my own hopeless breakdown

But I'm here in your arms
Spinning around right now
It's like magic
Cause your hearts so unbroken
That I cancels mine out

I came here angry
And just saved me
So sweep me off of this barstool
Whatever comes next
Don't hold anything back
Don't hold anything back
As long as we're strangers you can't break my heart
