

# The Feelings

Kiesza

Could it be I just want healing  
Could it be I don't need a reason to wanna feel like that  
Ummmm yeah

Going out alone to get out my head  
Letting go of what I wanna forget  
Dancing through it yeah yeah

That Gypsy woman do my hair and dance all night  
For all the things I'm dealing  
With that I'm dealing  
But just one night I see you there your body's talking, sharing all my feelings

And you give me the feelings that I do

For you for you for you for you, I do  
(Oh baby you)  
And you give me the feelings that I do  
And you give me the feelings that I do  
And you give me the feelings that I do  
And you give me the feelings that I do

Moving through lights like shadows  
Going like we don't know how  
Like we don't know how to stop  
Ummmm yeah

Filling all the empty space up  
Touching when our worlds make contact  
Feelings that I like yah  
Oh yeah

That Gypsy woman do my hair and dance all night  
Through all the things I'm dealing with, what I'm dealing with  
But just one night I see you there your body's talking, sharing all my feelings  
All my feelings

For you for you for you for you, I do  
(Oh baby you)  
And you give me the feelings that I do  
And you give me the feelings that I do  
And you give me the feelings that I do  
And you give me the feelings that I do

For you for you you do you do  
So I let my body do the things I do  
Oh yeah  
You make me  
Yeah  
For you for you for you for you I do
