

Vicious Circle

Kiesza

Do you really want to do this now
Do you think it's going to change somehow
We try oh we try oh
Always end on a crash down
Do you really want to try again
Just because I love you
Doesn't make us friends
Oh why baby why
Do you resist on

Another end
Another end
This time you can't win

The more you tempt me
The more you tempt me
My heart falls back into love
The more you bend me
The more you bend me
My world spins back to us

I'm caught in a riddle
Right back in the middle
Run from you love
But I'm stuck in your vicious circle
Vicious Circle oh

Oh you really got it in your head
New beginnings where the heart is dead
You lie you lie to yourself while you pretend
Do you really want to go back now
Hate me all over again oh baby
Oh why tell me why
Do you insist on

Another end
Another end
This time you can't win

The more you tempt me
The more you tempt me
My heart falls back into love
The more you bend me
The more you bend me
My world spins back to us

I'm caught in a riddle
Right back in the middle
Run from you love
But I'm stuck in your vicious circle
Oh
I'm caught in a riddle
Right back in the middle
Run from you love
But I'm stuck in your vicious circle
Vicious Circle

You know that I want you
But I can't have what I want no
If we're always starting again
I know that you want me
I would give you what you want but
I won't give it to you again

The more you tempt me
The more you tempt me
My heart falls back into love
The more you bend me
The more you bend me
My world spins back to us

I'm caught in a riddle
Right back in the middle
Run from you love
But I'm stuck in your vicious circle
Oh
I'm caught in a riddle
Right back in the middle
Run from you love
But I'm stuck in your vicious circle
Vicious Circle
