

Wouldn't Be Better

Kiesza

Found myself inside a war that I don't wanna leave
Found my way into battle that I'll never beat
It wouldn't be better without you
It wouldn't be better without you

We get crazy, we get angry, we make fuss
It ain't complicated 'cause we're always making love
And I'm cool with all the feels 'cause our sex is so unreal
Fight like animals but then you crawl up on me, feel your touch

I'm like, ooh like that, ooh you get me hotter
Than the desert sand, you make my body want it
When it feels like that, mirage all my emotions
And I can't hold back, 'cause ooh I want it, I want it

Found myself inside war that I don't wanna leave
Found my way into battle that I'll never beat
It wouldn't be better without you
It wouldn't be better without you
Found myself inside war that I don't wanna leave
Found my way into battle that I'll never beat
It wouldn't be better without you
It wouldn't be better without you

Don't want to admit it but I need your lust
Maybe I'm addicted 'cause I feen for us
Fingers moving down my curves, it gives me a rush
I go back in time and I start falling in love

So touch me, ooh like that, ooh you get me hotter
Than the desert sand, you make my body want it
When it feels like that, mirage all my emotions
And I can't hold back, 'cause ooh I love it, I want it

Found myself inside war that I don't wanna leave
Found my way into battle that I'll never beat
It wouldn't be better without you
It wouldn't be better without you
Found myself inside war that I don't wanna leave
Found my way into battle that I'll never beat
It wouldn't be better without you
It wouldn't be better without you

Oh, it wouldn't be better
No, it wouldn't be better
Ooh, it wouldn't be better
'Cause of you, whoa
It wouldn't be better
It wouldn't be better
