

Crooked Strings

Kiev

I found the words that
You left by the door
And I meant to read them, but
I fell asleep

So what's worse to have left
A pattern or rival, they'll
Hand over meaning
That's distant from yours

When all that I can read, is
All I have found
The law I can't see, is
All I allow now

How could I know
This crooked string could lead us, home
Oh we are from the sea

And all that I can read this
All I have found
And all I can swim in, is
All passed me by, last time

(Do, do do do do)

Adjust my size
Implant it all, until I
Camera's blind
And why we left there

Cause everytime I've known, is
The turning lies
Cause everytime I've known, is
(Ah, ah)

I found the words that
You left by the door
I meant to read them, but
I fell asleep

(Do, do do do do, do)
(Ah, ah)

Cause everytime I've known
It's you
A lie, a lie

Cause everytime I've known
