

Loot Recovered

Kiev

Don't shine your light to know
Where we can find something new
I [?]
The sun did shine for all

I know

You were too late to find out
I wouldn't miss it 'til they'd go

The sooner I know, I know on my way

I know
Yeah I know, I know
Follow you

You should just testify, now push against that wall
Let me mush them around, break them down like
Cereal, Cheerios
I'll wear them on my highlight chain
Made from the walking dead now
I see ya' from the corner, yuh
I scratch you, scratch you 'round the door

Play the pop, play that pop, play the piano pop with your soul

Sooner well I know, I go
Follow you there
Soon I, well I'll know, I go
Follow you

Yeah I know, I know
I know you

Yeah I know, I know
Follow you

Yeah I know, I know
Follow you
