

Empty

Kiiara

I find my troubles wait 'til I'm home
Nothing to distract me when daylight is gone

It's been months, it's been months
I've been counting the days
Just for once, just for once
Give me something to chase
I can run, I can run
But I can't keep the pace
Where were you on my darkest day?

I hold my breath so that you can breathe
Used to stand with me, I'm running on empty
Now I gave my sight so that you could see
That I'm running on empty

We both thought it best we take time on our own
Maybe I just need rest, I don't sleep well alone

I just toss and I turn
All I see is your face
We just slash and we burn
To get back to that place
I can run, I can run
But I can't keep the pace
Where were you on my darkest day?

I hold my breath so that you can breathe
Used to stand with me, I'm running on empty
Now I gave my sight so that you could see
That I'm running on empty

It's been months
Just for once
Give me something to chase
Just for once
Where were you on my darkest day?

I hold my breath so that you can breathe
Used to stand with me, I'm running on empty
Now I gave my sight so that you could see
Used to stand with me, I'm running on empty
