

# Speed

Kiiara

Tell me  
What you need  
Ignore  
Everything  
I don't overthink  
I don't blink

Patience  
I'ma leave  
Don't need  
Empathy  
Call me crazy call me mean

But  
I don't have the time to get to know you  
We've already been through this before  
I don't have the time to care or show you  
I'm only gonna break your heart some more

Baby I'm a different breed  
Different breed  
Never gonna match my speed  
Match my speed  
Got a mind that you can't read  
You can't read  
Never gonna match my speed  
Match my speed

Switch up  
Gotta go  
Leave you  
All alone  
Call me  
New phone  
Won't see  
Won't know

My foot's heavy on the gas  
There's no way I'm looking back  
If I do then I might crash

I don't have the time to get to know you  
We've already been through this before  
I don't have the time to care or show you  
Only gonna break your heart some more

Baby I'm a different breed  
Different breed  
Never gonna match my speed  
Match my speed  
Got a mind that you can't read  
You can't read  
Never gonna match my speed  
Match my speed
