

Safe Harbour

Kiki Dee

When I was a bird
Careless holding broke my wings
And when I was a singer
They took all there was to sing

And when I was a boat
Their boulders broke my bow
When there was a question
They never showed me how

Now you're my safe harbour
You're the smile I want to win
You've got sweet sweet powers
You're the place I should have been

Now I am a night bird
And I know what song to sing
You made me fly
So straight so nobody sees I broke my wing

And now that I'm full grown
Even though I'm still a child
Now my mind is peaceful
And you're loving keeps me wild

'Cause you're my safe harbour
You're the smile I want to win
You've got sweet sweet powers
You're the place I should have been

Not I'm not a pebble dashed
The breeze can blow astray
And I'm not afraid now
At the passing of each day

'Cause you're my safe safe harbour
You're the smile I want to win
You've got sweet sweet powers
You're the place I should have been
