

## Simple Melody

Kiki Dee

Look at that sky don't it make you feel good  
Running in rain and chopping up wood  
Digging a hole for no reason at all  
And running in rain till we ready to fall

Simple (simple) little melody  
Won't you carry me, carry me on  
Simple (simple) little melody  
Won't you carry me, carry me on

Have to say we found us a way  
We're taking a journey to where we want to be  
Digging a well though we can't really tell  
If the water is warm but it's there for you and me

Simple (simple) little melody  
Won't you carry me, carry me on  
Simple (simple) little melody  
Won't you carry me, carry me on

Happy to say we've found the right way  
We're taking a journey to the country  
Digging a well though we can't really tell  
If the water is warm, so we keep on singing

Simple (simple) little melody  
Won't you carry me, carry me on  
Simple (simple) little melody  
Won't you carry me, carry me on
