

Talk To Me

Kiki Dee

Talk to me
I don't know what your thinking
Talk to me
Tell me what's wrong

I can see
There's a distance between us
When the stranger is showing
The lover is gone

Talk to me
I know how to listen
You can trust in me
This is where you belong

Here with me
You're not in any danger
Pretend I'm a stranger
Tell me what's wrong

Baby don't leave me hanging on
Our love can slip away
Hold it
We've got so little time

And oh so much to say
So won't you talk to me
I'm here and I'm waiting for you
Talk to me

Don't get me wrong
Come to me
You can cry on my shoulder
If I can't share your changes

The lover is gone
Oh baby hold it
We've got so little time
And oh so much to say

So won't you talk to me
I'm here and I'm waiting for you
Talk to me
This is where you belong

Come to me
You can cry on my shoulder
If I can't share your changes
The lover is gone

So won't you talk to me
I'm here and I'm waiting for you
Trust in me
This is where you belong

Oh be with me
You can cry on my shoulder

If I can't share your changes
The lover is gone

Oh won't you talk to me
I'm here and I'm waiting for you
Come to me
This is where you belong

Here with me
You're not in any danger
Pretend I'm a stranger
Lover what's wrong
Trust in me
