

# Water

Kiki Dee

Nature made you strong I am part of you  
You're part of everyone  
Feeling as I do there's a peaceful feeling  
When I look at you

Oh water, water in the ocean  
Take back all the rain and save the day

I seem to brush against the shore  
While you the calmful watcher see much more  
You see much more  
Life blood pouring all around but still you say you got away  
There is a way

Oh water, water in the ocean  
Take back all the rain you gave away and save the day

It's quite a while ago he walked away  
Couldn't blame him, how could he stay when things were that way  
?  
Feeling as I do there's a peaceful feeling  
When I look at you

Oh water, water in the ocean  
Take away the pain and save the day
