

We've Got Everything Going For Us

Kiki Dee

This is on our side
There is so much we can do together
The most precious thing is time
Time to love baby
We've got for ever and a day
So I count my blessings when I say

Baby we've got everything going for us
Don't have a care in the world
We've got everything going for us
As long as you've got me
And I've got you boy
Skies will be blue boy

Maybe we're not rich
In material things but honey
So very very rich
In the spiritual things that money just can't buy
And that I wouldn't change I'll tell you why

Baby we've got everything going for us
Don't have a care in the world
We've got everything going for us
As long as you've got me
And I've got you boy
Skies will be blue now
It's true now

We've got everything going for us
We don't have a care in the world
We've got everything going for us
Every little thing
