

When We Get There

Kiki Dee

Never been in love before
Take your time I'm new at this
Take your time and we'll get there
We'll get there and

When we get there it will be
Everything we thought it would
And when we get there it will be
Awfully good awfully good

Never felt like this before
Never thought it would be like this
Never thought I feel this way

We're on our way and
When we get there it will be
Well worth the waiting for
And when we get there you will see
I'll be yours you'll be mine
Wait for me take your time my love

We're on our way and
When we get there it will be
Well worth the waiting for
And when we get there you will see
I'll be yours you'll be mine
Wait for me take your time my love

When we get there it will be
Well worth the waiting for
When we get there you will see
I'll be yours you'll be mine
