

Hit The Planes Down

Kill Hannah

on that cowboy in the sky
with all the freedom of a madman
was that shining carnivore
camera said it took me under
in one fell blow

hit the planes down
tear the sky out
hit the planes down
in one fell blow

attached by hinges to the ceiling
where the cheek bone shadows fall
upon a face it took me under
my fears box glow

hit the planes down
tear the sky out
hit the planes down
in one fell blow
