

# The Chase

Kill Hannah

"Drive" you said  
"Just blow me away"  
We don't wait to be saved  
We'll dream wide awake  
Words that you said  
Burn holes through my brain  
And I'll never be the same again...

You can pray all you want  
We're not coming back oh...  
All these thoughts, they just fade away...

The chase is on  
If you run  
I will follow you...  
And I belong in your arms  
Dying next to you  
The chase is on...

"Drive" you said  
With tears down your face  
I've got to see the stars  
Is that so hard?  
Secrets that day  
I'll take to the grave  
Yeah, no one can catch us now...

You can pray all you want  
We're not coming back oh...  
We're the feelings above the flame...

The chase is on  
If you run  
I will follow you...  
And I belong in your arms  
Dying next to you  
The chase is on...

The chase is on  
If you run  
I will follow you  
And I belong in your arms  
Dying next to you...  
The chase is on  
If you run  
I will follow you...  
The chase is on  
I belong in your arms...

The. Chase. Is. On
