The Trains Are So Loud

Kill Hannah

everyone, every time the trains are so loud

everyone that has hands tear this hempisphere down

when walls sway like stage scenery it's my way out, so follow me down

the gas lights butterflies, when they start to burn watch them burn

every time the gas lights burn the butterflies i see the way out, it's so loud, it's so loud

the trains are so loud the trains are hempispheres down the trains are so loud the trains are butterflies out the trains are so loud
