

# They Can't Save Us Now

Kill Hannah

So this is how it is to be alone  
Your heart beats like it's cracked and made of stone  
But whenever someone asks just say there's nothing wrong

They can't save us now  
'Cause we're far away from home  
And there's no where else to go  
They can't save us now  
'Cause we're lost and won't be found  
We can scream so loud  
But they can't save us now

So this is how it feels to be insane  
The world looks like a movie always playing  
But how can hearts so young feel so much pain?

They can't save us now  
'Cause we're far away from home  
And there's no where else to go  
They can't ever save us now  
Will they ever understand we don't want to be like them?
