Bleeding

Kill The Lights

I see the hunger in your eyes
You cut yourself to feel alive
Nothing matters when
You're lying on the floor
Scattered pills and razor blades
Saw you through the years of pain
Your world is sinking like to needle to your vein

Your lungs are giving up
The maggots taste your skin
No one to help you with
The grave your digging

Nightmare, living in this nightmare, we are suicidal
Screaming our lungs out in the dark
Nightmare living in this nightmare
You can't hide the violence
Fighting myself to stay alive

I watch you fight for your last breath
Decayed inside there is nothing left
The world keeps turning as you stare into the stars

Your body's giving up
Addiction tastes your blood
Nothing can save you
When your world is broken

Nightmare, living in this nightmare, we are suicidal
Screaming our lungs out in the dark
Nightmare living in this nightmare
You can't hide the violence
Fighting myself to stay alive

Your getting closer
To meeting god and
You can't let go
You're holding on to hope
Your screaming out
But no hear a word you say
As you let go

Nightmare, living in this nightmare, we are suicidal
Screaming our lungs out in the dark
Nightmare living in this nightmare
You can't hide the violence
Fighting myself to stay alive
