

Man Without A Face

Kill The Lights

I run into the battle
Like a man without a face
Leeches eating at my hands
The bullets are flying
Bodies fill the shadows
With the smell of death decay
Smother me in Novocain
And wash out trenches

Keep on marching to the sound of the hopeless drones
Consume the terror of death

I close my eyes and hide
Trapped in a tomb without a name
Count down the hours to your demise
Lay down your life and meet your ghost
Bury your phantom all alone
The fear drives me to my grave

Watch my stitches bleeding
Rotting from within
Drowning out the voice of God
The rats keep on feeding
Flesh burns in the fires
Brothers scream my name
I don't need your miracle
I'm dying without you

Keep on marching to the sound of the hopeless drones
Consume the terror of death

I close my eyes and hide
Trapped in a tomb without a name
Count down the hours to your demise
Lay down your life and meet your ghost
Bury your phantom all alone
The fear drives me to my grave

Leave me to rest
Leave me to rest, all alone
Leave me to rest
Leave me to rest

I close my eyes and hide
Trapped in a tomb without a name
Count down the hours to your demise
Lay down your life and meet your ghost
Bury your phantom all alone
The fear drives me to my grave

Drives me to my grave
