

# Scapegoat

## Kill The Lights

This war is lost  
Your lies just light the flame  
With nothing left  
We cut ourselves inside  
Abandon hope  
I'm counting down the days  
Blood on your hands  
Destroyed the world we create

Just save your breath  
I'm sick of waiting for a change to come  
It's time to just let it go  
I feel the pain  
My heart is failing what have we become  
It's time to just let it go

I see your eyes  
Watch as our worlds collide  
Your hollow mind  
I taste the fear you hide  
Another day  
We made the same mistake  
This life is dead  
But I can't leave this behind

Just save your breath  
I'm sick of waiting for a change to come  
It's time to just let it go  
Feel the pain  
My heart is failing what have we become  
It's time to just let it go

Just let it go  
Let it go  
Let it go

Just save your breath  
I'm sick of waiting for a change to come  
It's time to just let it go  
Feel the pain  
My heart is failing what have we become  
It's time to just let it go

Save your breath, save your breath, let it go  
I've suffered but I will rise  
Let it go  
Let it go  
Let it go
