

Sleep With The Devil

Kill The Lights

Push away all these feelings of pain
Carry me in your arms
I can't face all these thoughts in my head
Without hurting myself
Cut me open and bury these scars
I'm alone in the rain

Sleep with the devil
Lost in the storm
Fighting for closure but it never comes
Look in the mirror
Hate what you see
Carry the burden of sleeping, sleeping alone

Cover up all these pictures of you
Lay me down to rest
I can't fake that I'm not giving up
As our blood turns to red

Sleep with the devil
Lost in the storm
Fighting for closure but it never comes
Look in the mirror
Hate what you see
Carry the burden of sleeping, sleeping alone

Everything's falling around me tonight
Show me how to live
Give me the strength to survive through the night
Nothing left at all

Take me home, I can't do this alone
All we had is dead

Sleep with the devil
Lost in the storm
Fighting for closure but it never comes
Look in the mirror
Hate what you see
Carry the burden of sleeping, sleeping alone

Sleep with the devil (Sleep with the devil)
Lost in the storm
Fighting for closure (Fighting for closure) but it never comes (It never comes)
Look in the mirror
Hate what you see (Sleep with the devil)
Carry the burden of sleeping, sleeping alone (It never comes)

Sleep with the devil
(Sleep with the devil)
But it never comes
(It never comes)
(I'm sleeping alone)
(I'm sleeping, sleeping alone)

Sleep with the devil...

It never comes...
Look in the mirror...
