

Drive

Kill the Noise

There's nothing I could do
There's nothing I could do
There's nothing I could do
That'd put it into proper view

There's nothing I could say
There's nothing I could say
There's nothing I could say
That'd shift perspective anyway

So I'm gonna drive, I'm creeping faster
And I don't control what happens after

Don't slow me down
Don't slow me down
Don't slow me down
Don't slow me down

Just

Drive
Drive
Drive
Super fast and super wide
Drive
Drive
Drive
Shut up. Let's ride

There's nothing I could do
There's nothing I could do
There's nothing I could do
That would convince you or your crew

There's nothing I could say
There's nothing I could say
There's nothing I could say
You wouldn't listen anyway

Drive
Drive
Drive
Super fast and super wide
Drive
Drive
Drive

Some may say, there's some good that could come after
Some may say, there's a reason for the way that everything is unraveling and
Some may say, a cliché about the darkness
And some may say

Shut up. Let's ride

Drive
Drive
Drive

Super fast and super wide
Drive
Drive
Drive

Drive
Drive
Drive
Super fast and super wide
Drive
