

Taste Like Hell

Kill the Noise

There's gotta be a reason why
Heart bleeds when you are near
In my sweetest dreams, your hands on me
Grip tight, we disappear

So take all of me, I want the cuts bone deep
Take off my skin, lay your flesh on me
I want every high to feel like I need help
Lick me like the flames, tell me I taste like hell

(Tell me)

Infect my lungs, crawl through my blood
And eat me from within
Tell me it's all okay, smile, lie to my face
Let me indulge in all your sins

So take all of me, I want the cuts bone deep
Take off my skin, lay your flesh on me
I want every high to feel like I need help
Lick me like the flames, tell me I taste like hell

Tell me I taste like hell
Tell me I taste like hell
