

# Without You

Kill the Noise

Breaking me down  
Pull me apart  
Bleeding out and broken for ya

I hate you but I love the rush  
Sick of being cut by your touch

Are you all that I got?  
Do you want me or not?  
Is there more to me without you?

Maybe it's impossible without you  
The more it hurts, the more I know

Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you

Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you  
Ooh, there's more to me when it's me without you

There's more to me when it's me without you  
Without, without you  
Without you
