

What I've Become

Kill Your Idols

It's alright to be alone again it's been fun used again I can handle what is true it's not easy being you can't feel pain when I'm numb can accept what you've done I don't leave myself open to pain because I know I'd be hurt again *[Chorus:]* From what you've done is what I've become for me things don't work out at all if you're on the bottom there's nowhere to fall what ever you looking for it's not here you should be looking elsewhere I'm as hollow as a long dead tree I think its to let it be. *[Repeat Chorus]*
