

# Haunted

Killah Priest

[Killah Priest]

My brain's haunted, I got a conscious full of convicts  
Bloody tampons, a blonde chick wit cum on her lip  
Her pimp's whole arm could fit  
She's f\*ckin' his fist  
My brain's insane, four walls full of shit stains  
Floor's full of toilet water  
My used cum will stop at the drain  
Red blood and black paint rain  
Weed residue, here's a better clue  
The screws are loose, so my head'll ooze  
Me is so nice wit me lyrics  
Sick so order, I'ma hafta, don't, them, put, it, this, with  
Ha-ha-ha-ha-ha-ha  
And did ever that best ah, no one's this better  
No one's this clever, measure, me to them  
And I'll out-weight them  
120 to 85, and y'all quickly advance to a 360  
From 360 to 720 to 1540, you just a shorty  
You think ya cipher zero is the only number that's infinity?  
I destroy that philosophy wit a eight  
Now let's build, you rappers are no frills  
I'm down by law, you sucka emcees sweatin' me for a funky fresh rhyme  
You come just in time

(Hook)

Just in time, for the rhyme of the century  
You come just in time, for the rhyme of the century  
Y'all come just in time, just in time  
Just in time, y'all come just in time

[Killah Priest]

My brain's haunted, I got a conscious full of convicts  
They dwell inside my brain cell

They tryna escape from the pen  
Wait! You said that before and when I'm writin'  
I know, but my flow got indicted  
I make sure that the bars are unbreakable  
Make sure the God is unreplaceable  
Make sure his heart's unerasable  
Make sure the stars are untraceable  
Laws are unmistakable  
Capable to take you to Galaxies  
Just sit in silence then we'll leave  
Look! We're here, just an idea  
No travelin', just close ya eyes  
And the whole place appeared  
That's the speed of thought  
Look! You're free to walk  
93 millions miles from the Universe  
See that little star up there that's Earth  
WOW! You think there's life up there  
It's just a theory, its gettin' weird  
Hear me clear, my name is Adam  
It's the evenin' of the day  
I'm hungry, let's get somethin' to eat

Let's walk this way

(Hook)

(Outro)

Yeah Wool, Omega mind  
Omega mind-state, Alpha inside  
Yeah, most of our tribes are dozen of them  
Yeah-yeah, uh, G/Ciples Ridaz, from beyond  
Came down here just to kick it wit ya for a minute  
Black dust, Proverb unit, uh, yeah  
All worlds is in one world; one world is in all worlds  
G/Ridaz the oath, continue on till it's ova  
Yeah, lift up ya sword, uh  
Code of arms, you know what it is
