

Inner G

Killah Priest

[Talking:]

Headless Horsemen in the building

Killah (Maccabeez officials) nigga

Raz nigga Bis nigga it's Priest nigga horse men nigga

("They spit like something else")

Maccabee (as the books get close and we move on)

It isn't human

I'm get you nigga (or the other) this how we do it

[Priest:]

I hide my face like the elephant man

Follow you

Reach out of long black sleeves with skeleton hands

Touch rappers watch them rot their skin fall off

Boil in the pavement on a cold boardwalk

Then I laugh like the joker while pissing on them

Then put on my hood wait on the next corner

The next victim look in his face with tears in my eyes

That crystallize and turn into stone

Before they fall from my dome

Like an avalanche the way I spit

Sounds like an African chant

The Priest run through MC's like I'm trampling ants

Peep the form it's the Vatican stance

The Pope victor the 1st the flow spit with the curse

The sicker the verse the more bodies we stick in the dirt

Wait around I'm ah pick you a hearse

I like the long black ones

Drive around while spinning on two wheels

It's whatever you feel
Blue steel on black day
Silver clouds when the mac spray
Turn rappers back into clay (aha)
My minds a museum filled with microphone exhibits
Of rhymes that I write that look like pictures

[Ras Kass:]

Ayo my technique is berserk
I predator y'all niggas pull your f**king skin off like a tee shirt
Re taught no remorse donate aborted rappers for skin cell research
I spit a few bars and niggas is f.u.b.a.r
You wouldn't ride on me if you was driving two cars
(Homey) the mind of Cesar Augustus rocking a Caesar
Eating a Caesar salad in August
Plus I'm illustrious I been with the Moors
Born and raised in L.A. by Monster Cody
Slowly chose the dark side for ice cold 40s
Like Obi Wan Kenobi with an iced-out rollie
And might f**k a white bitch don't get it f**ked up
Love black chicks but they don't like to suck nuts
So tell me what the hell am I supposed to do
It's like sippin' sizzurp in Houston I'm supposed to screw
Talk Slimy like okra he will spit backwards
Just to make Harpo out of Oprah
Rass spits sicker than most groups put together
'Cause y'all put together I put fool to leather
And walk over dead bodies like Rise of the Machines
Don't be surprised nigga, it's Idi Amin
Rappers get ate up like the number on Kobe's jersey
Godammit I pop the clergy

[Canibus:]

Canibus the only MC on earth
That did geo-physical research
About the new rebirth
The sun turn the earth to rotisserie dirt
Listen before you start dissing me first
This will be worst twelve degree pole shift
Displace the ocean
They send space probes in
They come back broken
Armageddon omen
Planet x inbound and rapidly approaching
None of us are chosen
Field manual 2 0 dash 4 6
Your life's getting away you better run for it
Population reduction mass destruction the reset button
Is coming and some of us love it
The return of the bureau
We will prepare you stay away from the media
They will scare you
Rappers respect beef tactics and technique
I'm ah show you how the best compete let's peep
My verse on the mic is surgical strike
Of herbal delight with no personal life
Live Saturday night sacrifice batter the mic
Jab to the left jab to the right

[Kurupt:]

I'm the scripture sculptor, volcanic
Ya ignoramus I'm the future
Volcanic vulture firebird

I fire words catch this cannon
All opponents poetry Leonus
Spartan ya just can't sink me
Shots hell's kitchen tales sinky
Since I was born it's all about Roman
Since the Roman wars I been Caesar
Master sieges master of diseases
Throughout the Legions
Temperatures beyond degrees
Terrifying like Saddam in legions

But I think ya looking to closely
And I don't wanna hafta bust ya eyes
